🌐 Portfolio

## Professional Summary

Computer Science Engineering student with hands-on experience in web application development and software projects. Proficient in building responsive user interfaces, implementing backend logic, and working with databases. Strong foundation in programming, problem solving, and collaborative development, with practical exposure gained through internships, hackathons, and academic projects.

## Professional Experience

### Web Developer Intern – Infotak Solutions

Aug 2025 – Present

Developing and optimizing web applications using modern development tools and frameworks. Built multiple end-to-end web platforms, including a solution integrated with hardware components. Worked on UI enhancements, API integration, performance optimization, and responsive design to deliver reliable, production-ready applications.

### Software Development Intern – J7 Technology Solutions Pvt. Ltd

Aug 2025 – Nov 2025

Completed an academic internship focused on real-world software development practices. Assisted with assigned development tasks, followed structured coding standards, and collaborated with mentors and peers. Gained exposure to professional workflows, version control using Git, and team-based development processes.

## Technical Skills

**Programming Languages:** Python, JavaScript, Java, SQL

**Web Technologies:** HTML5, CSS3, Responsive Web Design

**Frameworks & Libraries:** React.js, Node.js, Express.js

**Databases:** MongoDB, MySQL

**Tools:** Git, GitHub, VS Code, Postman

**Core Competencies:** Problem solving, debugging, data structures fundamentals, API integration, teamwork, clean coding practices

## Projects

### Spendly – Personal Expense Tracker

(React, Node.js, Express.js, MongoDB)

- Built a full-stack web application for managing personal income and expenses with secure authentication.
- Implemented transaction tracking, category-based analytics, and data visualization dashboards.
- Focused on responsive design, usability, and optimized backend API performance.

### Elevatr – Job and Internship Portal

(Next.js, Django REST Framework)

- Developed a web platform connecting students and recruiters.
- Implemented job listings, applications, and resume upload workflows.
- Worked on frontend-backend integration and deployment-related fixes.

### Arya Productions – Company Website

(HTML, CSS, JavaScript)

- Designed and deployed a responsive static website for a company.
- Improved layout consistency and usability across different screen sizes.

## Coding Profiles

🔗 LeetCode    ↳ HackerRank    ↳ SkillRack

## Achievements

- Participant – VISA 24 Hrs AI Hackathon (2026), Team Deathseekers.
- 2<sup>nd</sup> Place – App Development Event, Velammal Engineering College.
- 4<sup>th</sup> Place – Python Symposium, Inter-college problem-solving competition.

## Education

- B.E. Computer Science and Engineering (2023–2027)**  
Velammal Engineering College, Chennai — CGPA: 8.32 (Till 5<sup>th</sup> Semester)
- AISSE (2022–2023) & AISSE (2021–2022)**  
Velammal Vidhyashram, Chennai — 12<sup>th</sup>: 68.6%, 10<sup>th</sup>: 81%

## Interests & Certifications

---

### Certifications

- NPTEL – Programming in Java (Jan–Apr 2025)
- NPTEL – Programming in Modern C++ (Jul–Oct 2024)
- Udemy – Complete Python Course (Dec 2024)
- Udemy – 100 Days of Code: Python Bootcamp (Dec 2024)

### Professional Interests

- Software and web application development
- Problem solving and competitive programming
- Learning and applying new technologies
